

Urban Ed Enterprises

Solutions are Second Nature

A local, small IT firm, owned and operated by minority women within the heart of historic Anacostia, a HUB/Enterprise zone.

Just a few reasons to develop an alliance with us.

Then there's our experience and diversified skill set around:

- IT maintenance and repair contracts
- Help desk and end user support
- Networks and cable installations
- Technical training services

And finally, because we're rooted in the community, we hire from the community, so contracting with us, builds neighborhoods.

A different business model. A solid business model!

Call to speak to a contracting specialist.
