Cables To Go 10-Foot Cat6 550Mhz Snagless Patch Cable, Black - \$8.09 (includes shipping & handling)

Description

With Cables To Go's Cat6 550Mhz Snagless Patch Cables you can stay ahead of the game with the use of this high-speed cabling to distribute data, voice and video. These cables will deliver stable performance to 550 MHz. Each meets EIA/TIA Cat 6 TIA/EIA- 568-B-2.1, draft 9 standards. These cables will handle bandwidth intensive applications up to 550 Mhz and beyond and drastically reduce both impedance and structural return loss (SRL) as compared to standard 100 Mhz wire! Constructed with high-quality cable and a shortened body plug, this design will keep Near-End Crosstalk (NEXT) levels to a minimum. The molded, snag-free boot prevents unwanted cable snags during installation and provides strain-relief. Cables To Go Cat6 550Mhz Snagless Patch Cables are available in a variety of colors to easily color-code your network installation.

Specifications

● Cable Type:	CAT6
● Cable Connector A:	RJ-45
● Cable Connector B:	RJ-45
● Cable Length (Feet):	10.0 ft
● Fiber Size:	50 micron
● Connector Material:	Gold Plated
● Cable Conductor Material:	AWG Stranded Copper
● Cable Jacket Material:	PVC
● Cable Color:	Black

THIS PRODUCT SHIPS IN OEM PACKAGING - GO GREEN AND SAVE GREEN

Manufacturers sometimes offer discounts when large quantities of products are purchased without fancy, colorful, retail packaging. We take advantage of these opportunities to bring you the same quality, retail product at a lower price. Retail packaging is designed to look good on a store shelf and attract your attention. It frequently includes more paper, plastic and cardboard than needed. OEM packaging is not as visually attractive but is far more economical and because OEM packaging uses less paper, plastic, ink and cardboard it creates less waste and is better for the environment. Although OEM packaged product ships in a plain white or brown box you can be assured it is the same quality product as the retail packaged version. Buying OEM packaged products saves you money and helps save the planet...GO GREEN AND SAVE GREEN. Included accessories, software, documentation, and manufacturer warranties on OEM products may vary from retail versions. Please review our detailed specifications and photo gallery for included accessories and see below for warranty information.

Detailed Features

- Molded, Snag-Free boot prevents unwanted cable snags
- Applications:
 - Gigabit 1000 BASE-T; 100 BASE-T; 10 BASE-T (IEEE 802.3)
 - 4/16 Mbps Token Ring (IEEE 802.5); 100 VG-AnyLAN
 - 100 Mbps TP-PMD (ANSI X3T9.5); 55/155 Mbps ATM
 - Voice; T1
 - High bandwidth applications such as 622 ATM, Wideband
- Designed For: Network Adapters, Hubs, Switches, Routers, DSL/Cable Modems, Patch Panels and other twisted-pair applications
- Certifications: UL Listed
- Standard: Category 6 TIA/EIA- 568-B-2.1, draft 9
- Weight: 0.25 lbs
